

Meeting: Pilot project on “Facilitation of ship to shore reporting” – 2nd meeting

Place and date: Lisbon, 25 September 2019

Agenda item: Follow-up actions from previous meeting

Document number: 2.2

Submitted by EMSA

Summary	This document presents the current status of the follow up actions arising from the 1 st meeting of the facilitation of ship to shore reporting pilot project.
Action to be taken	As per paragraph 3.
Related documents	Minutes of the 1st meeting of the “ship to shore reporting” pilot project.

1 Background

The 1st meeting of the pilot project for the facilitation of ship to shore reporting took place on 03 April 2019 in EMSA. The minutes of the meeting with the follow up actions were distributed to the participants on 16 April and approved by correspondence (see in Annex).

This paper focuses on the current status of the actions arising from the 1st meeting.

2 Current Status

The below table presents list of follow up actions and their status:

Action	Current status
EMSA will provide attendees with copies of the meeting presentations and the responses to the questionnaire received from the project participants.	Completed. Published on: http://emsa.europa.eu/ssn-main/documents/workshop-presentations-a-reports/item/3514-1st-meeting-of-the-pilot-project-for-the-facilitation-of-ship-to-shore-reporting.html
EMSA will draft a document defining the business and technical concept and distribute it to the project participants.	Completed. More details in the document 2.3 Concept paper for Facilitation of ship to shore reporting pilot project.
EMSA will investigate how to: establish ship-to-shore communications in order to provide the possibility for ships to report to MRS/VTs by electronic means, and; integrate the results of the STM project into the pilot project.	Completed. More details in the documents 2.4 Integrated Ship Report – defining final content for the pilot project and 2.5. Ships to shore MRS/VTs reporting by electronic means.
The next meeting is planned for September 2019, when the technical requirements will be presented.	Completed.

3 Actions required
