

Meeting: 16th Mediterranean AIS Expert Working Group

Place and date: Italy, Rome, 12 December 2019

Agenda item: Follow-up actions from the previous meeting

Document number: MAREΣ 16/3/1

Submitted by: EMSA and Italy

Summary	This document presents the status of the follow up actions arising from the 15 th Mediterranean AIS Expert Working Group Meeting.
Action to be taken	As per paragraph 3.
Related documents	15 th Mediterranean AIS Expert Working Group meeting report.

1. Introduction

This paper presents the status of the actions arising from the 15th Mediterranean AIS Expert Working Group Meeting (held in Venice, on 27 November 2018).

2. Action points and status

Action point: 1	Romania will coordinate with EMSA for the data visualisation in SEG.
Follow-up:	Since 07 May 2019, Romanian data are available in the SEG production with 1-minute downsampling. Status – Closed
Action point: 2	EMSA and Italy will assess the request of Croatia to decrease the AIS down-sampling frequency rate from 6 to 1 minute within the IMS/ SEG environment.
Follow-up:	EMSA is testing the technical possibility to provide to SEG the AIS stream from Croatia with 1 minute down sampling. Data are streamed to the SSN pre-production by MAREΣ. The processes were delayed, mainly due to the SEG upgrading and the STAR migration to the new proxy application (SSRH), impacting the central system and RSs. Status - Ongoing
Action point: 3	Partially pre-filled questionnaires (annexes to MAREΣ Technical manual) will be sent to the MAREΣ participating Countries to update (in January).
Follow-up:	The questionnaires were sent to the Member States in February 2019. MSs replied except Slovenia and France. The questionnaires are attached to the RS technical manual. Slovenia and France are invited to submit their replies (by mid- January 2020). Status – Partially closed
Action point: 4	The status of actions regarding: (a) the delivery to Romania of the AIS data with 1 minute down-sampling, and (b) submission of the information about the AIS status at national level to be annexed to the MAREΣ Technical Manual” will be maintained as “Ongoing” until their execution will be finished. Other actions are considered as “Closed”.
Follow-up:	See Action points 1 and 3.

	Status – Closed
Action point: 5	Italy will amend the data tables in the MAREΣ statistics making them more comparable.
Follow-up:	ICG will upgrade a limited number of the users' accounts to enable them using the MAREΣ statistical tools already in place. The accounts to be enhanced will be agreed by the ICG and the participating Countries. Status – Ongoing
Action point: 6	MSs will inform RS about the root cause of incidents, and the actions taken (or planned).
Follow-up:	ICG stressed the need to investigate and report the cause of incidents/failures occurred for every incident. The status of action point should remain unchanged. Status – Ongoing
Action point: 7	The status of the Observers States which started exchanging data with MAREΣ will be discussed at the HLSG.
Follow-up:	The item was presented to the HLSG DM5 and the outcome will be presented under Agenda item 8. Status – Closed
Action point: 8	Subject to the decision of the HLSG, a formal letter inviting to exchange data with Beneficiaries will be sent to Member States. Following that, Member States will provide a formal reply.
Follow-up:	The item was discussed at the HLSG DM5 and the outcome will be presented under Agenda item 8. Status – Closed
Action point: 9	The Beneficiary Countries will develop and maintain their AIS infrastructure in compliance with the relevant EU procedures in force (e.g. the data availability standards).
Follow-up:	A consolidated CoU document will be presented under Agenda item 8. Status – Ongoing
Action point: 10	EMSA will present the outcome of the discussion related to Agenda item 8 to the next HLSG.
Follow-up:	See Action point 9. Status – Closed
Action point: 11	Testing of the AIS data buffering capabilities will start in February 2019.
Follow-up:	AIS data buffering by NPRs tests were conducted by EMSA in cooperation with RSs and Member States. The results will be presented under Agenda item 5. Status – Closed
Action point: 12	The meeting of 2020 may take place in Georgia (indicatively in September).
Follow-up:	The status of action point will be updated at the meeting. Status – Open

3. Action Required

Member States are invited to take note of this information and provide their feedback.
