

SAFESEANET OPERATIONAL AND LEGAL ASPECTS

Interface and Functionalities Control Document (IFCD) v1.1.1

Submitted by EMSA

<i>Summary</i>	Present the draft revised IFCD (v1.1.1) for SSN group validation
<i>Action to be taken</i>	As per paragraph 3
<i>Related documents</i>	a. HLSG 10.5.2 – Revision of the IFCD b. HLSG 11.5 - IFCD version 1.1

1. BACKGROUND INFORMATION

In accordance with Article 2 of Commission Decision of 31 July 2009, the HLSG shall approve the IFCD and any amendments thereto. Version 1 of the IFCD was approved by the HLSG 8 (Brussels, 13 December 2012) following the submission of a proposed draft prepared by the SSN Group. Any amendment to the IFCD should follow the same procedure.

The HLSG 10 (16 January 2014) agreed to initiate the process for the revision of the SafeSeaNet Interface and Functionalities Control Document (IFCD). The purpose of this revision was to reflect:

- The changes that will be implemented in SafeSeaNet (SSN) due to Directive 2010/65/EU on reporting formalities for ships in EU ports;
- Previous decisions of the HLSG; and
- The outcome of pilot projects.

The draft IFCD was discussed at the SSN Group meeting 21 (8 May 2014) and agreed the amendments with the exception of Chapter 2.6 (Cooperation with Other EU Systems) and Chapter 3.4 (Maximum access rights per role) for which asked more to review it and submit again at the HLSG 12 (December 2014) for the final adoption of the IFCD version 1.1.

EMSA was invited to continue the work on those two chapters for finalisation at the HLSG 12.

2. PROGRESS

The modifications are included in the draft IFCD version 1.1.1 presented in Annex. Amendments are included in track changes with a footnote explaining the context.

Consequential or editorial changes in other chapters due to the amendments in chapter 2.6 and 3.4 are also proposed in track changes.

3. ACTION REQUIRED

The SSN Group is invited to validate the amendments in track changes of the draft IFCD in Annex.

The revised draft IFCD will be sent to the HLSG 12 (December 2014) for approval.

Annex: Draft IFCD (version 1.1.1)
