

SSN Group meeting 22

SSN V2-V3 transition

Agenda item 22.4.2

Philippe Duchesne / Senior Project Officer
Department C: Operations/Unit C.2.2

Lisbon / 29 October 2014

- Progressive implementation of SSN V3 by MS during the **transition period** (March to June 2015)
- During this period, the SSN must support the exchange of information in line with the two versions of the XMLRG (v2.08 and 3.00)
- There will be some limitations due to technical constraints and the relatively short duration of the transition period
- The rules regarding the treatment of V2 messages during the transition period were introduced at SSN Group 21. Request for additional flexibility

After the HLSG meeting, EMSA has further assessed the issue and designed the technical solution introduced in this document

Portplus notif. and Shipcall requests

- Both V3 and V2 PortPlus notifications through the System Interface
 - 2 distinct URLs
 - Both V2 and V3 PortPlus notifications from a single Member State
- V2 PortPlus notifications may still be submitted via the Web Interface
- Both V3 and V2 ShipCall requests through the System Interface
 - V3 requests: all XML details (including V2 Hazmat XML details)
 - V2 requests: all V2 Hazmat details
 - This is an additional flexibility compared to the solution presented
- V3 ShipCall requests through Web Interface
 - Details in both V2 and V3 formats
- Requests for Hazmat details: depending on PortPlus notification version
 - 2 distinct URLs

Portplus notif. and Shipcall requests

Red text: only during transition period

Messages	System interface (XML and SOAP)	Web Interface	
		Textual Interface	Graphical Interface
PortPlus notification	PortPlus V3 + PortPlus V2	PortPlus V2	N.A.
ShipCall Request	ShipCall Request V3 with Details V3 and V2 (XML only) + ShipCall Request V2 with Details V2	ShipCall Request V3 with Details V3 and V2	ShipCall Request V3 with Details V3 + Details V2
Providing ShipCall Details	Details V3 + Details V2	N.A.	N.A.

Ship notifications and Ship requests

- Both V3 and V2 Ship MRS notifications through the System Interface
 - 2 distinct URLs
 - Both V2 and V3 notifications from a single Member State
- V3 Ship MRS notifications through the Web Interface
- Ship MRS request in V3 format only
 - V2 MRS details not provided

Ship notifications and Ship requests

Red text: only during transition period

Messages	System interface (XML and SOAP)	Web Interface	
		Textual Interface	Graphical Interface
Ship MRS notification	Ship MRS V3 + Ship MRS V2	Ship MRS V3	N.A.
Ship MRS Request	Ship MRS Request V3 with Details V3	Ship MRS Request V3 with Details V3	Ship MRS Request V3 with Details V3
Providing MRS Details	Details V3	N.A.	N.A.
