

Management of Ship Certificates in NSW Finland

12.5.2017

Finnish National Single Window

Part C any relevant national legislation

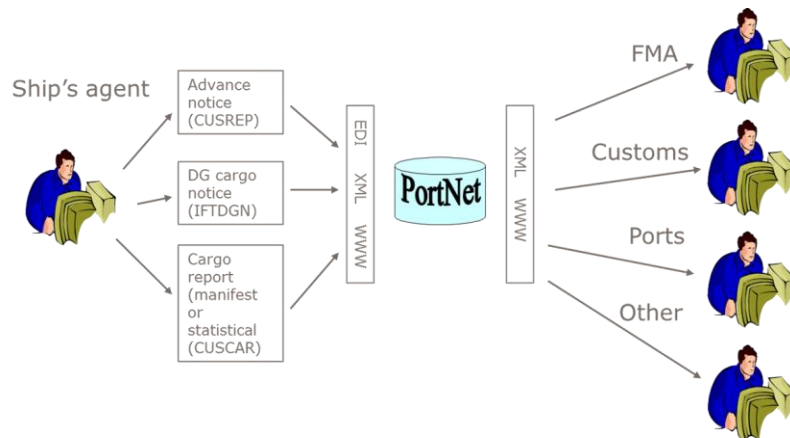

- **Process for registering a ship to NSW**
- **In order to register a vessel for arrival notification data provider is obliged to provide the following ship information to ship register**
 - Name, Call sign, IMO-number
 - Nationality
 - Net, gross tonnage
- **Data provider is obliged to lodge following ship's certificates to customs which are stored to NSW-database**
 - Tonnage certificate
 - Certificate of nationality
 - Certificate of Classification
 - Load line certificate
 - Security certificate
- **Legal basis for Payment of Fairway dues**
- **Act on Fairway Dues (1122/2005)**
- **Regulation issued by Finnish Customs on the notification procedure for vessels arriving at and departing from Finnish ports**
- **This regulation applies to all ships that are obliged to report to NSW as per Directive 2010/65**

Ship's certificates in NSW

- Ship's certificates are stored in operational vessel registry of Finnish NSW
- Ship's certificates are not stored in digitally encoded format but as documents in PDF-format
- Collection of certificates started in June 2012 when we implemented RFD Directive
- There are around 1650 different ships visiting Finnish ports annually
- We have thousands of certificates already stored in our system
- When certificates expire the data provider is requested to lodge a new one for customs
- Validity of certificates is checked always when ship arrives the first time per a calendar year
