Automated Behaviour Monitoring (ABM) Workshop 3
Operational Vessel Registry (OVR) improvement (action 7 ABM WS2)

Yann Le Moan – Integrated Service Design

Lisbon, 12.09.2017
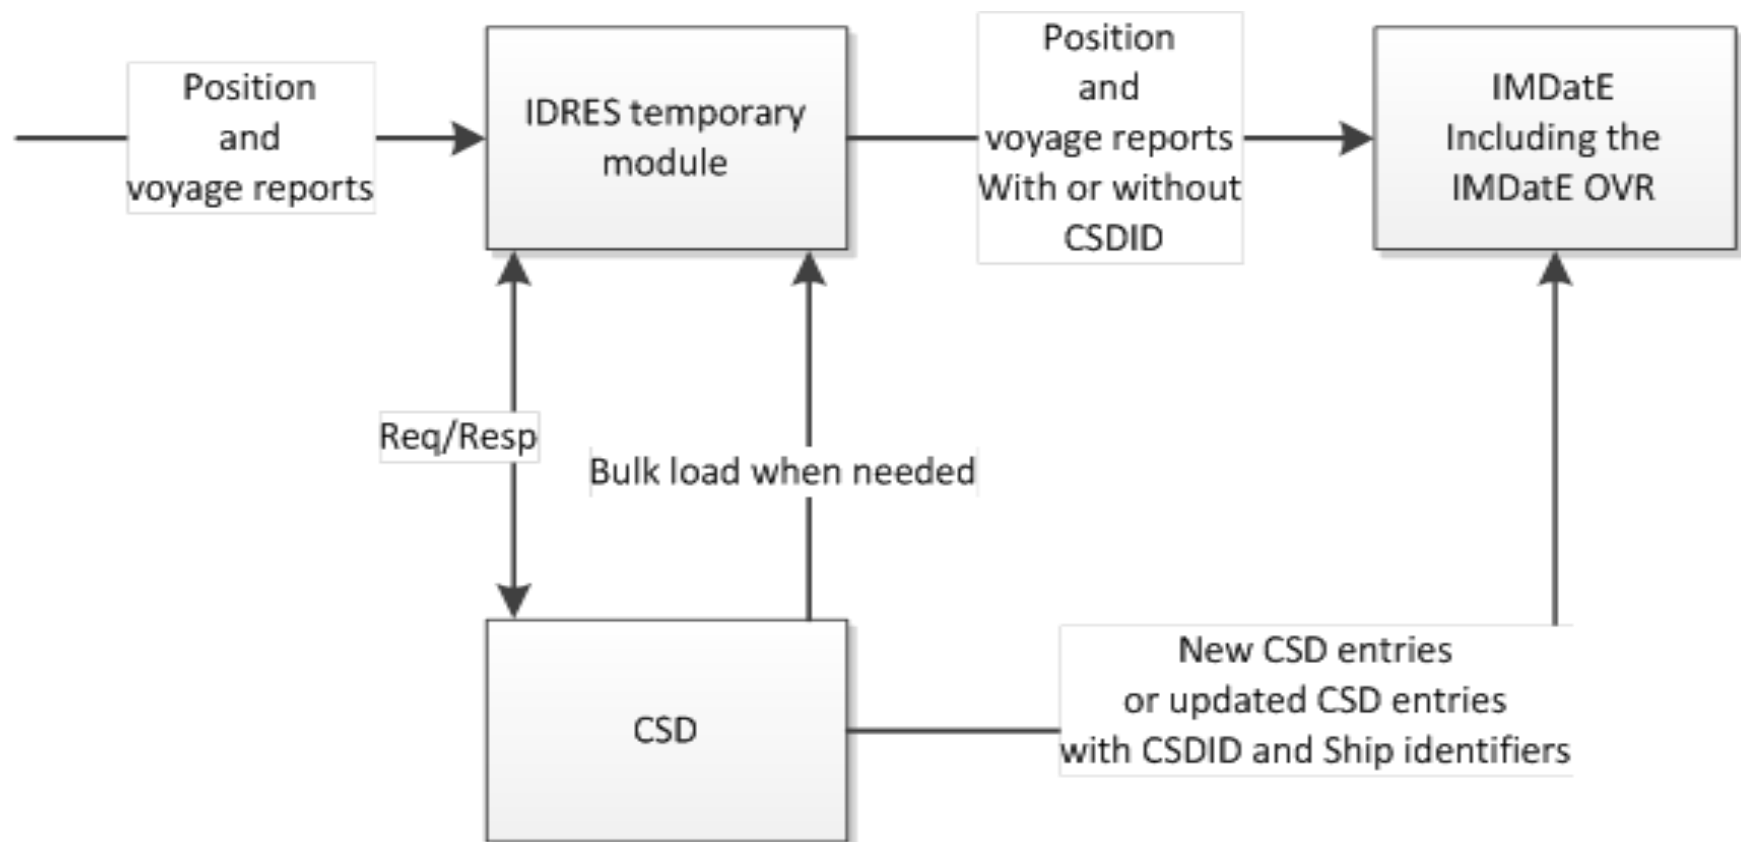

EMSA

Short term solution:

Along with IMDatE 2.2 release (8 June 2017):

- **The business logic of IMDatE OVR was amended to be prepared for the interim Identity Resolution (IDRES) solution**

- **A list of ships from the Central Ship Database (CSD) was inserted in the OVR (IMO/MMSI/Name*/Call-Sign/Type* to further improve its quality**

* when available

Mid Term solution: Identity Resolution temporary solution (expected October)
