EMSA

Pre-set modes

Where: via Client preferences
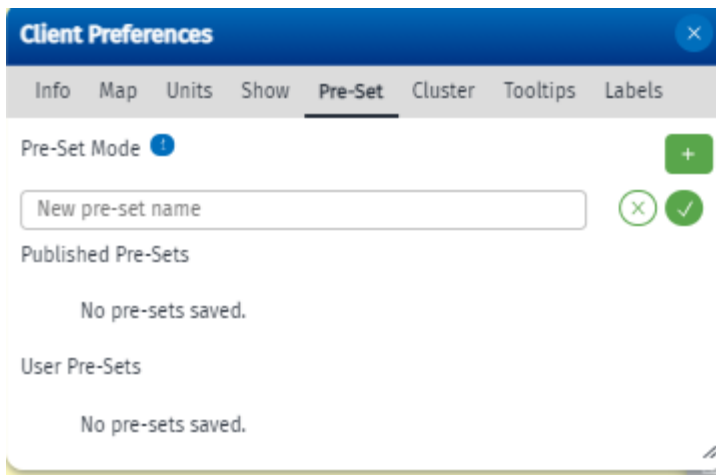

Purpose: to customise SEG view.

Create a pre-set

- **User Pre-set Modes**: not visible by other users.

- **Published Pre-set Modes** (by EMSA): visible to all users having access to a SEG operation.
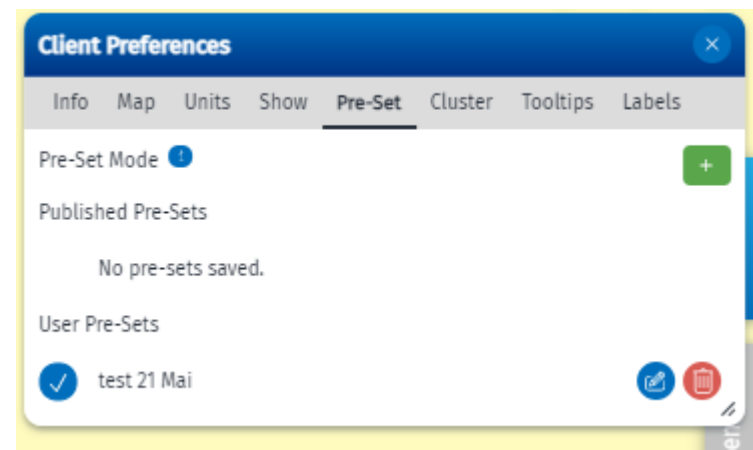

Pre-set modes

How to create a pre-set

1. Press ⊞ name the pre-set and press ✓

2. Your settings are saved, the pre-set is available in your user Pre-sets

3. You can edit ✐ or delete 🗑 your preset

Pre-set modes

- **What can be saved via pre-set mode:**

  - **Favourite lists,**

  - **configuration parameters and**

  - **filter selection options**

- **Possible to show/hide layer menu branches and to register it in preset mode**

Existing configuration should be saved as a 'User pre-set mode' before selecting any other pre-set mode or the initial configuration will be lost. See pre-set mode video tutorial at: http://emsa.europa.eu/ecosystem/seg-training-videos.html
