

IMDatE

Enhanced SURPIC

1

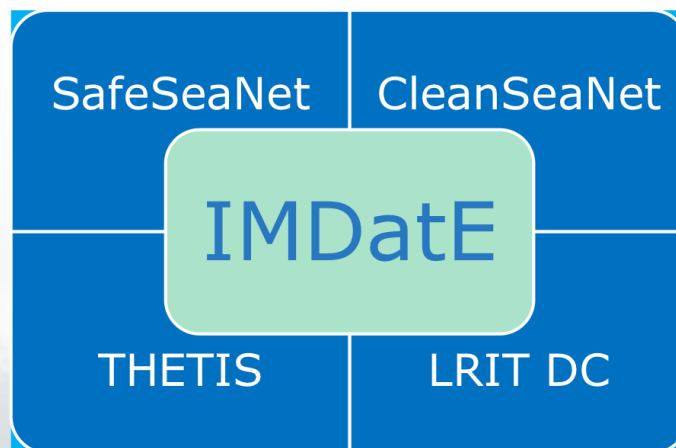

Andrea Pelizzari
C.3.1 – Integrated Maritime Services

6 May 2014

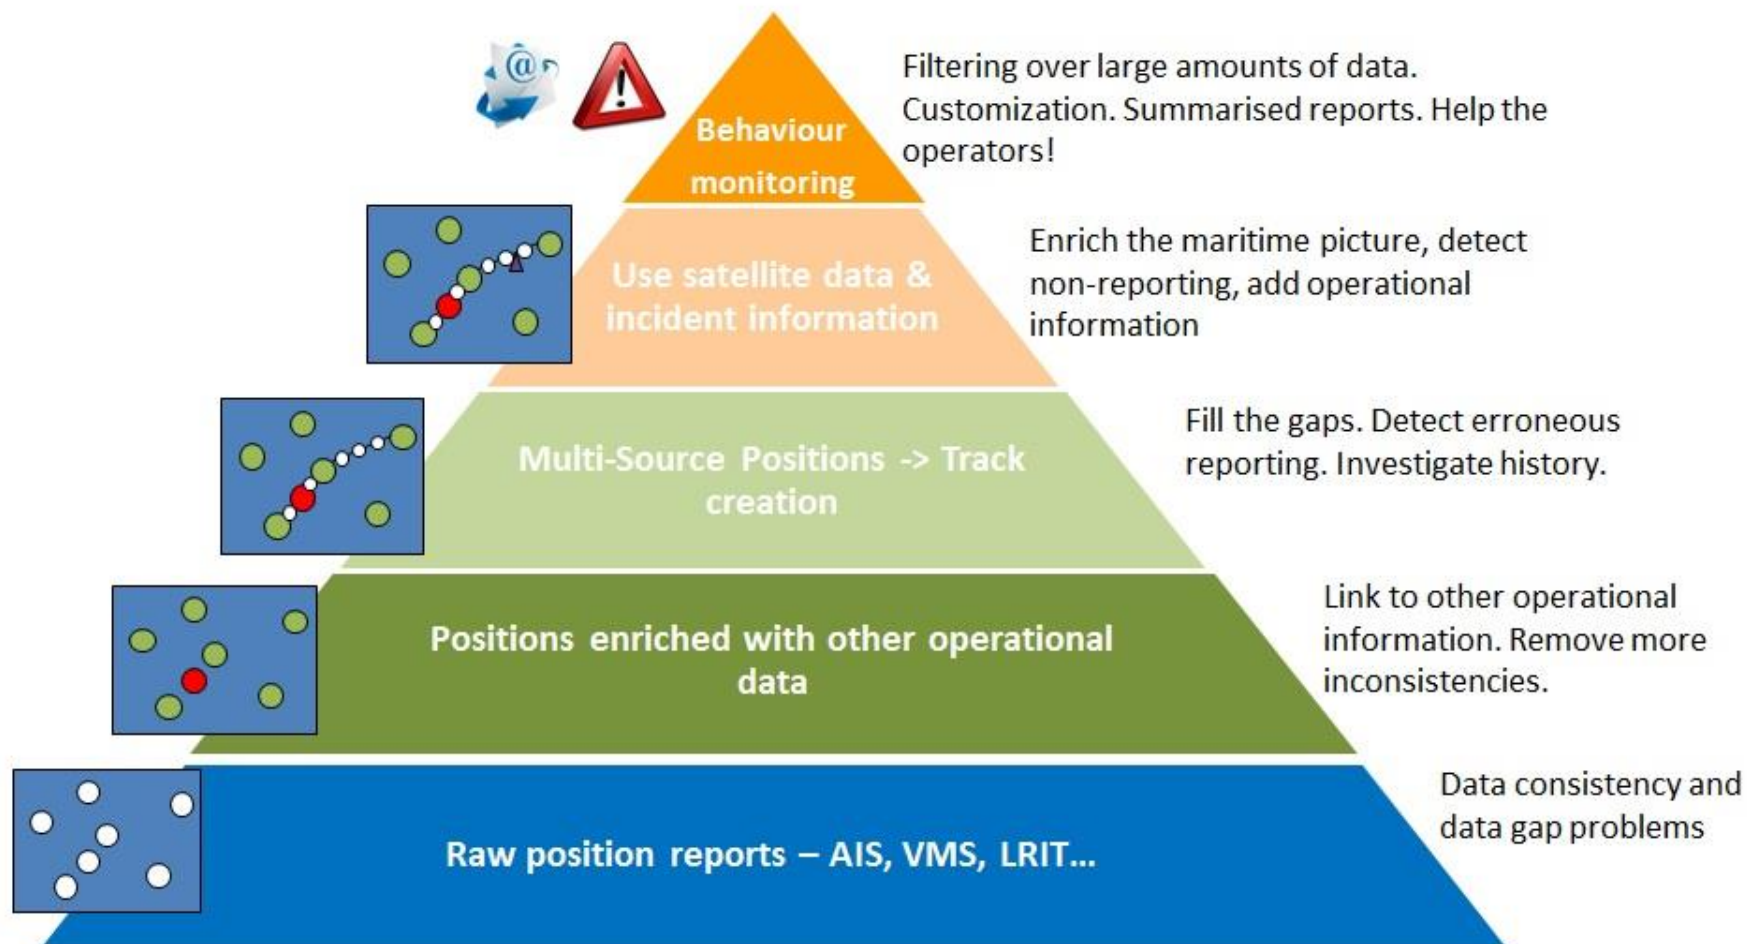

Integrated Maritime Data Environment

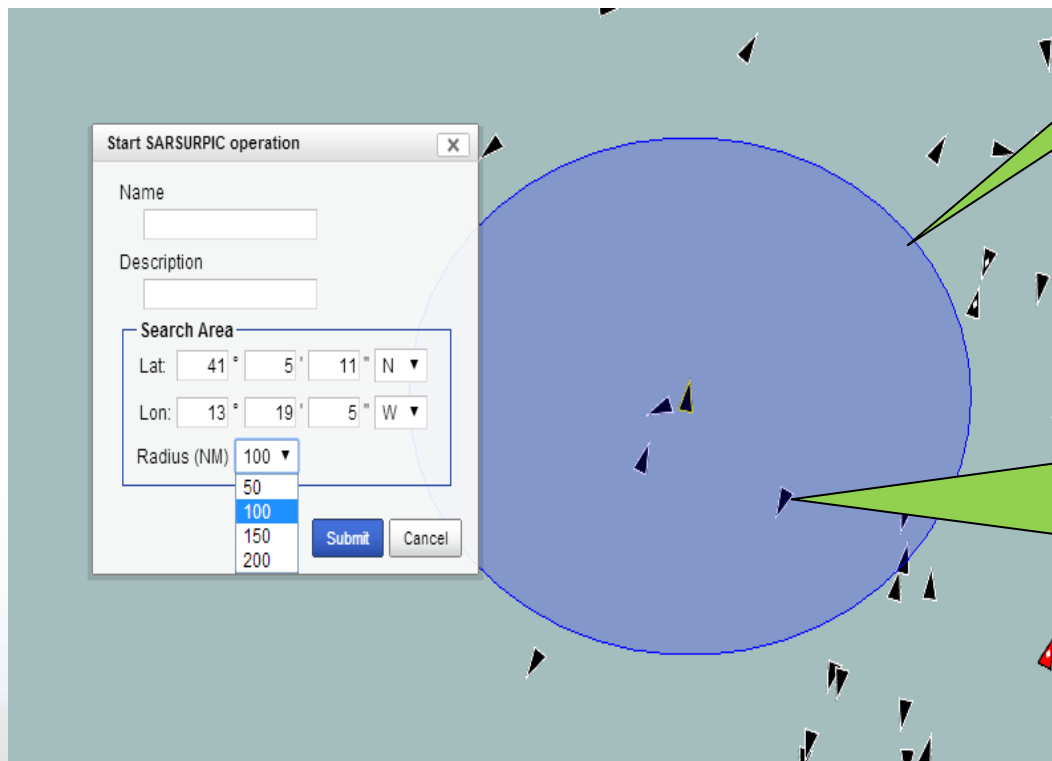

1. To **integrate** existing maritime services: LRIT, SSN, CSN, THETIS.
2. To provide **Value Added Services**
3. To have a more **flexible** means to support future **services**.

Integration of Maritime Data

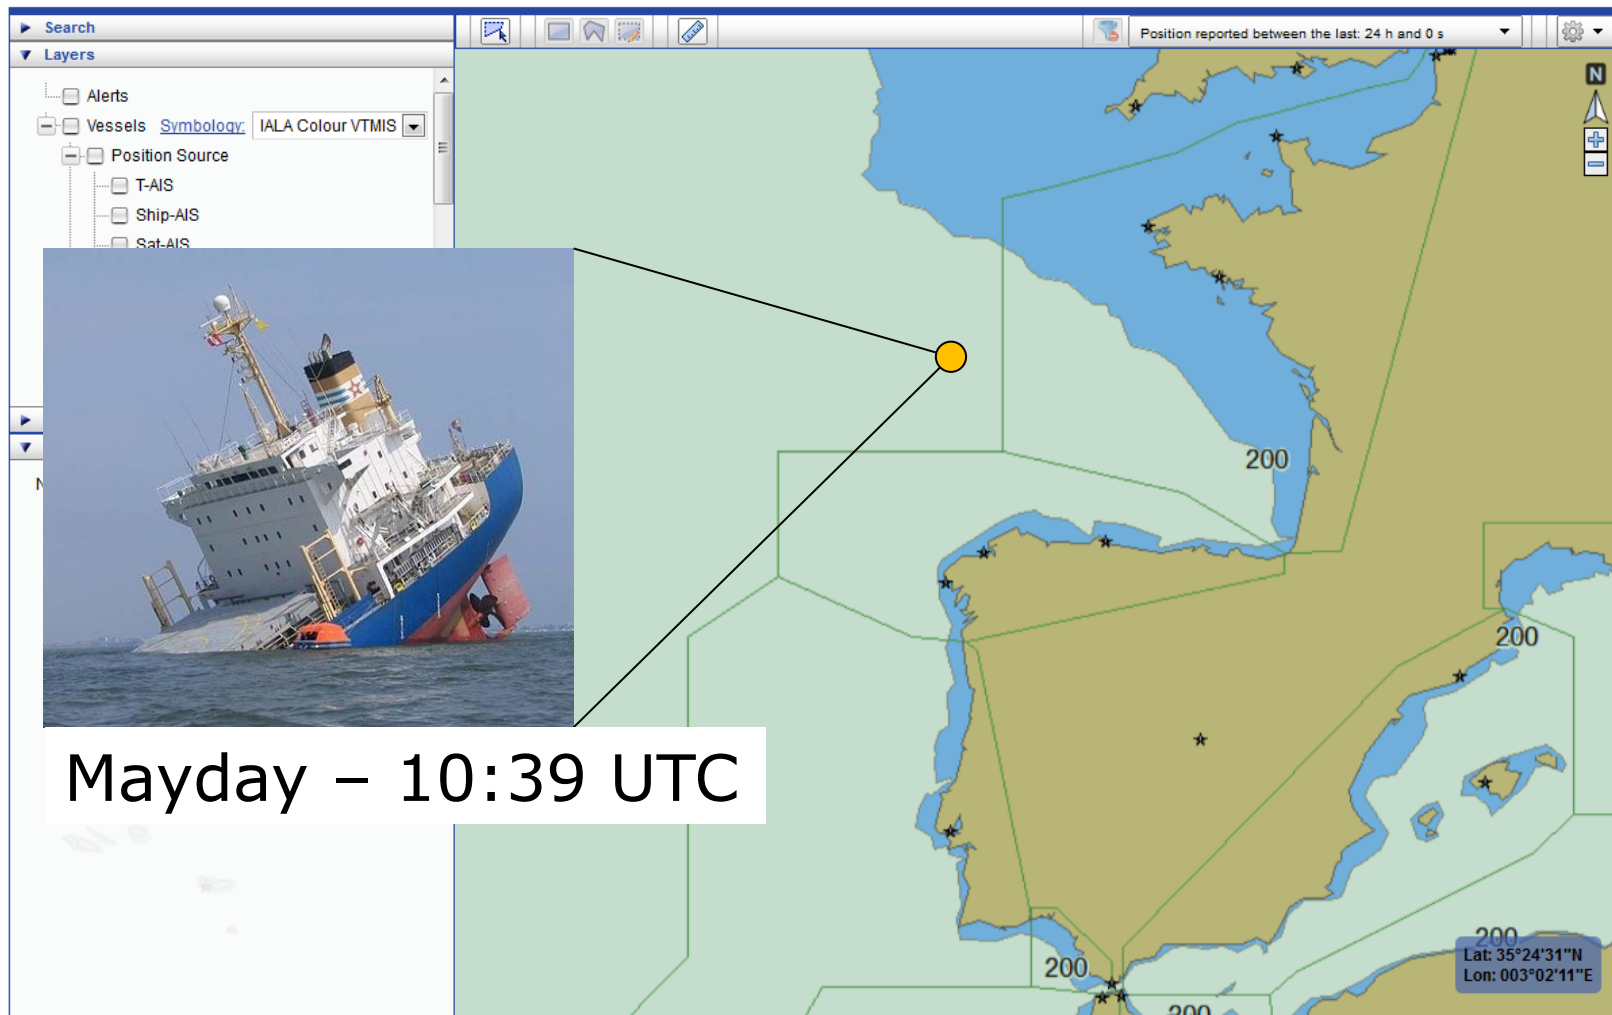

IMDate – E-SURPIC

SURPIC Area

T-AIS – 5min (10nm)

Sat-AIS – 1h (7nm)

VMS – 10min (10nm)

IMDatE – SAR Poll

Click and Poll
a specific LRIT ship

Display the
current position

IMDatE – E-SURPIC benefits

- More data sources
- More ships
- More recent positions

Saving more lives than ever!

A large, powerful ocean wave is shown in the background, with white foam cresting over a dark blue body of water under a clear sky.
