

Conditions of Use for Overseas Territories

4th meeting EU LRIT Expert Group
10-11 December, 2008

1

Requests received

- Greenland (via DK)
- Netherlands Antilles and Aruba (via NL)
- French Polynesia and New Caledonia –SAR only- (via FR)

2

Approach for Overseas Territories

- Conditions of Use will be based on Conditions of Use for Member States
- Entry into EU LRIT system will be similar as for EU Member States
- Only difference: pre-paid mode, to pay for estimated number of messages ahead of time.
- Contact/Payment through parent country or directly with O.T (to be clarified today)

3

Steps to Participate in EU DC

- Authorized testing ASP's have been approved on a national level for conformance testing
- DDP has been submitted to IMO
- list of ships submitted to EU LRIT Ship DB
- Conditions of Use have been signed & relevant contact points nominated (LRIT NCA, ship data manager, operational contact, & financial contact)
- The calculated pre-paid amount has been paid to the EMSA bank account

4

Definitions same as for MS

- **LRIT NCA:** the National Competent Authority or government ministry/administration which is entitled to receive LRIT info & is responsible to create, coordinate & channel requests of all potential national users of the DC & their access rights through the web interface of the system.
 - Will this be the same NCA if we go through parent country or if not then we need a contact specific for the O.T.
- **LRIT User:** any user of the EU LRIT system which is entitled to receive LRIT info through the EU LRIT DC.

5

LRIT NCA

- The signing party nominates the LRIT National Competent Authority contact point (LRIT NCA) (or CA if OT signing Conditions of Use)
- The prime focal point for EMSA in terms of the EU Data Centre as the NCA manages users in country (or CA manages users in the OT).

6

Invoicing and Billing

- LRIT NCA or signing party to nominate a "Financial Contact Point" for invoicing purposes
- LRIT NCA/CA responsible for payment of LRIT messages requested by any of its national/OT users.
- The amount for pre-paid mode will be calculated per OT (see separate slide)
- At end of year, can see if there is still outstanding balance based on requested message total etc.

Pre-paid amount covering 2009 (6 months)

- Average costs for position report x number of LRIT ships in register x 4 reports per day x 183 days; and
- Number of LRIT ships in register x vessel integration fee (only to be paid in 2009);
- Number of LRIT ships in register x vessel integration fee x 0.05 (covering change of flag)
- Number of LRIT ships in register x average costs of a poll request x 10 messages x 26 (once per week) x 0.1 (10% fleet) (covering polling own ships)
- Fixed amount as also charged to the EU MS (tbd based on DDP) (covering standing orders/pos. requests)
- All SAR requests are free of charge
- Return on messages provided to other DC's

Scope

- Overseas Territory should be in Annex II of the European Treaty or otherwise treated as a third country
