

Workshop on Capacity Building – Working Group on Flag State Implementation

Analysis of the outcome of the pre-workshop
questionnaire on a training scheme for FS surveyors

Anna Bizzozero / Project Officer for Training and Cooperation

Lisbon / 29 March 2017

Capacity building through training

- training courses (2.1)
- e-learning modules (2.2)
- ***Cost effectiveness centralized training for new entrants (2.3) and for updating knowledge (2.4)***

Vocational training scheme for new entrant Flag State Surveyors

In general: strong interest for the proposal and confirmation that the approach would be cost effective and support uniform implementation

Comments:

- "Cost-efficient, especially for small administrations"
- "Should be non-mandatory and flexible"
- "Should include e-learning elements for cost efficiency"
- "We already have a system in place" (Best practice), "Can complement"
- "Domestic voyages and fishing vessels out of EMSA's scope"
- "Tasks delegated to RO"

Vocational training scheme for new entrant Flag State Surveyors – appropriate duration?

Wide range in the responses although the majority indicate 2-3 weeks as an outset

Need for discussion, many parameters:

- Surveyor's background
- The range of inspections/surveys/audits which the surveyors will conduct
- Content/scope of training
- Modular training, including already existing trainings
- E-learning
- Mix theory with practice, tests etc.

Training program for designated Flag State Surveyors

In general: strong interest in the proposal and confirmation that the approach would be cost effective and support uniform implementation

Comments:

- "Cost-efficient, especially for small administrations"
- Emphasis on e-learning
- "Should be non-mandatory and flexible"
- Support for a refresher seminar as is arranged by EMSA in the PSC area today
- "Support, but less of a training scheme, more the form of regular training and information measures"
- "IT supported quality management tool"
- "Domestic voyages and fishing vessels out of EMSA's scope"
- "We already have a system in place" - Best practice
- "Tasks delegated to RO"

Training program for designated Flag State Surveyors – appropriate duration?

Responses ranging from 0,5 week – 4 weeks, with majority indicating 1 week.

Duration depending on:

- The range of inspections/surveys/audits which the surveyors will conduct
- Content/scope of training
- Theory/practice
- E-learning
