

ABM WS3 - France feedback, based on the message dated 28 August 2017 15:15

- EMSA's info on IMDatE security were sent to the various points of contact - No further question from their side.
- no specific request for the moment (the latest requests were agreed at the last ABM meeting in Lisbon)
- It was agreed with the various FR stakeholders, in Jan 2017, that the ABM related info will be managed at local level (for confidentiality).
- The first step will be to train ABM admin. 8 of them will be trained on 29 Sept. It is expected then an increase of ABM use.
