Dear Sir/Madam,

The European Maritime Safety Agency (EMSA) would hereby like to make a correction to the procurement procedure EMSA/CDI/1/2014 for the "Service contract for the Aerial Application of Dispersant Service", published in the Official Journal of the EU and on the EMSA website, as follows:

- a) The **deadline for submission of requests to participate is no longer 10 February 2014 but 20 March 2014 (17:00 Lisbon time in case of hand-delivery)**. Consequently all other indicative project milestones and indicative dates published in the invitation to submit request to participate are postponed by 40 calendar days.
- b) In Point 12.6 d) of the Enclosure 1 -"Description of Needs and Requirements" - where can be read:
"(...) Candidates have to provide a type of airplane for which a dispersant application system, requiring no or minimum modifications to the airplane, has been flight tested and approved for use."

should be read:

"(...) Candidates have to provide a type of airplane for which a dispersant application system, requiring no or minimum modifications to the airplane, has been flight tested and approved for use, **or is in the process to be flight tested and approved, whereas approval should be evidenced by the time of contract signature at the latest.**

Proof of certification or evidence of the status of the process with the relevant certification authority should be provided within the request to participate. Signature of the contract with EMSA will be conditioned to the receipt of the appropriate proof of certification for the type of airplane and spraying equipment proposed."

Please note that all other the instructions for submission of the bids, terms and conditions, criteria for award, requirements and specifications remain unchanged.

As the new time limit for submission of the bids (closing date) is 20 March 2014, 18h Lisbon time; any candidate having already submitted a request to participate by 10 February (initial submission date) is allowed to withdraw and replace its request in order to take into account the present corrigendum.
