

NATIONAL EXPERT SECONDED TO EMSA
Project Officer for Sustainability
Ref. n°: EMSA/SNE/2023/01

The European Maritime Safety Agency was established for the purpose of ensuring a high, uniform and effective level of maritime safety, maritime security as well as prevention of and response to pollution by ships within the EU.

The idea of a European Maritime Safety Agency (EMSA) originated in the late 1990's along with a number of other important European maritime safety initiatives. EMSA was set up as the decentralised agency that would provide a major source of support to the European Commission and the Member States in the field of maritime safety, security and prevention of pollution from ships. The Agency was established by Regulation (EC) No 1406/2002 and subsequent amendments have refined and enlarged its mandate to cover among other measures, the efficiency of maritime transport.

The Agency provides technical, operational and scientific assistance to the European Commission and Member States in the fields of maritime safety, maritime security, prevention of, and response to, pollution caused by ships as well as response to marine pollution caused by oil and gas installations.

The Agency also contributes to the overall efficiency of maritime traffic and maritime transport and supports European cooperation on coastguard functions.

EMSA's activities can be broadly described as:

- providing technical and scientific assistance to the Member States and the European Commission in the proper development and implementation of EU legislation on maritime safety, security, prevention of pollution by ships and maritime transport administrative simplification;
- monitoring the implementation of EU legislation through visits and inspections;
- improving cooperation with and between Member States;
- building capacity of national competent authorities;
- providing operational assistance, including developing, managing and maintaining maritime services related to ships, ship monitoring and enforcement;
- carrying out operational preparedness, detection and response tasks with respect to pollution caused by ships and marine pollution by oil and gas installations;
- at the request of the European Commission, providing technical operational assistance to non-EU countries around relevant sea basins.

More information about the Agency and its structure and activities can be found on our website: <http://www.emsa.europa.eu>

EMSA invites you to send your application for a Seconded National Expert as Project Officer for Sustainability. This position will be attached to Department 1 'Sustainability and Technical Assistance', in Unit 1.1 'Sustainability'.

Conditions of Secondment:

This vacancy notice concerns a Seconded National Expert position. Rules applicable to National Experts seconded to EMSA can be found on the following link: <http://www.emsa.europa.eu/recruitment-info/seconded-national-experts.html>

Please read carefully these rules before applying.

The initial duration of the secondment is one year with possibility for extension.

The place of employment is Lisbon, Portugal.

Expected date of entry into functions: September 2023.

General conditions for the secondment:

This call for application is open to experts working for intergovernmental organisations (IGOs) or Government or State Departments in the EU Member States, Norway or Iceland.

The secondment of an SNE by an employer other than a national, regional or local public administration, an international organisation or an IGO should be authorised only on a case-by-case basis, once it has been ascertained that the SNEs employer is part of the public sector or is an independent university or research organisation that does not seek to make profits for redistribution.

To qualify for secondment, experts shall:

- Have worked for their employer on a permanent or contract basis for at least 12 months before their secondment and shall remain in service and continue to be paid by that employer throughout the period of the secondment;
- Be a national of an EU Member State, Norway or Iceland.

Functions and Duties:

Under the responsibility of the Head of Unit 'Sustainability', the successful candidate will be expected to:

- Contribute to the development of methodologies, guidance documents and supporting tools for the implementation and enforcement of legislation on pollution prevention from ships;
- Prepare and participate as necessary in visits to Member States for monitoring the implementation of EU legislative acts related to the prevention of pollution from ships (e.g. PRF Directive, EU MRV Regulation);
- Contribute to support the Commission and the member States in the different working groups at IMO level;
- Follow meetings and ensure support to the work of the European Sustainable Shipping Forum;
- Contribute to assessments of existing legislation conducted by the Commission;
- Contribute to training and capacity building activities related to the implementation of EU and international regulations related to the prevention of pollution from ships;
- Contribute to the technical work of the Agency on alternative sources of power for shipping;
- Support the Agency on any sustainability related issues, as required.

Main skills and qualifications:

- University degree or equivalent qualification, or professional experience preferably in the area of the above-mentioned functions and duties;
- At least three years of proven professional experience, related to the above-mentioned functions and duties, acquired after the award of the required qualification. (Candidates should specifically mention in their application how the relevant experience was acquired, including the range of tasks and their relevance to the functions and duties). When no university degree or equivalent qualification has been acquired, seven years of proven professional experience is required, of which at least three must be relevant to the above-mentioned functions and duties;
- Experience in drafting administrative and corporate documents. Candidates should provide reference to specific examples in their CV, demonstrating their experience and level of responsibility;
- Sound scientific knowledge on greenhouse gases, alternative fuels, air emissions, marine environment issues, and chemicals in general, will be considered an asset;
- Professional experience as a navigating officer or marine engineer (or combined: maritime officer) on board seagoing ships, or, experience on relevant projects for a maritime or environmental administration, ship owner, classification society, shipyard or as a naval architect or mechanical engineer will be considered an asset;
- Proven professional experience in working with databases (building requests, extracting, analysing) will be considered an asset;
- The ability to work under pressure and to deliver within precise deadlines, to organise the workload and to prioritise tasks;
- Good organisational and interpersonal skills as well as the ability to deal with people tactfully;
- A strong customer-focused approach to work, demonstrating responsiveness and flexibility;
- The ability to clearly communicate in an effective manner with colleagues, superiors, and external contacts at different levels;
- The capacity to work with minimum supervision;
- Proficiency in using the MS Office package (Word, Excel, Power Point and Outlook);
- Good communication, presentation and reporting skills in English.

Submission of applications:

Each application shall contain the following documents:

- a) A detailed curriculum vitae in European format (that can be obtained at the following address <http://europass.cedefop.europa.eu/en/documents/curriculum-vitae> or downloaded from our site).
- b) A motivation letter
- c) A duly completed and signed [declaration of honour](#) (which can also be downloaded from our site).

Please note that candidates cannot send their applications directly to EMSA. These applications are not considered valid. To be considered valid, the EU Permanent Representation or the EFTA Secretariat/Mission to the European Union (for Norway or Iceland), or the IGO, must send your application to: recruitment@emsa.europa.eu within the deadline below.

EMSA will only take into account applications received before the deadline which is **4 September 2023 at 17.00 hours (Lisbon time)**. Please liaise with the appropriate intermediary depending on your case, to ensure that your application reaches it well on time.

EMSA is an Agency focusing on gender balance and a harmonic workplace and strongly encourages the applications of women for the positions where they are underrepresented, specially SNEs positions.

The selection process:

For each selection process a Selection Committee is nominated. Each valid application will be screened based on the requirements of the job profile stated in this call for applications. The most suitable candidates will be called for an interview and a written test. **Please be informed that the interviews and/or written tests are likely to be organised remotely.**

Candidates are strictly forbidden to make any contact with the members of the selection committee, either directly or indirectly. Any infringement of this rule will lead to disqualification from the selection procedure. All candidates will receive an information letter on the outcome of their application.

The reserve list, if established, will remain valid until 31/12/2024, with the possibility of renewal. Therefore candidates whose name will be put on a reserve list could be offered a secondment during this period of time. Please note however that inclusion in the reserve list does not guarantee a secondment.

For any prior enquiry, please refer to the FAQ (Frequently asked questions) section, or send an e-mail to recruitment@emsa.europa.eu.

Equal Opportunities:

EMSA is an equal opportunities agency. Seconded National Experts are selected without prejudice as to race, political, philosophical or religious beliefs, gender or sexual orientation and without reference to their marital status or family situation.

Requests for information and lodging a complaint:

How to request for information: An applicant who would like further information concerning a particular decision of the selection procedure may send a request by e-mail preferably within 10 working days from the date he/she was notified.

EMSA Human Resources will forward the request to the Chairperson of the Selection Committee and the applicant will receive a reply as soon as possible.

How to lodge a complaint: An applicant may lodge a formal complaint under Article 90(2) of the Staff Regulations of Officials of the European Communities and Conditions of employment of other servants of the European Communities by e-mail to Recruitment@emsa.europa.eu or registered mail at the following address:

Human Resources and Internal Support Unit
EMSA
Praça Europa 4
1249-206

Lisbon
Portugal

The time limit for initiating this type of procedure is three months (see Article 90 (2) of the [Staff Regulations as amended by Regulation \(EU, Euratom\) No 1023/2013 of the European Parliament and of the Council of 22 October 2013, OJ L 287, 29.10.2013](#)) from the time you become aware of the act allegedly prejudicing your interests.

Applicants can make a complaint to the European Ombudsman at the address below or directly on Ombudsman's website <https://www.ombudsman.europa.eu/en/home>.

However, before submitting a complaint to the European Ombudsman, applicants must already have contacted EMSA about the matter and used all the internal administrative options for review and/or complaints provided for in the Staff Regulations.

Médiateur européen
1 avenue du Président Robert Schuman
CS 30403
F-67001 Strasbourg Cedex
France

Personal data protection:

Any personal data provided by the Applicant shall be processed pursuant to Regulation (EU) 2018/1725 of the European Parliament and of the Council of 23 October 2018 on the protection of natural persons with regard to the processing of personal data by the Union institutions, bodies, offices and agencies and on the free movement of such data, and repealing Regulation (EC) No 45/2001 and Decision No 1247/2002/EC. It shall be processed solely for the purposes of the recruitment exercise.

Should the Applicant have any queries concerning the processing of his/her personal data, (s)he shall address them to the data controller, the Head of Human Resources and Internal Support Unit.

The Applicant shall have right of recourse at any time to the [European Data Protection Supervisor](#).
For more on personal data protection and related documents see the [Personal Data Protection page](#).
