

Data identifier 53P (ANSI/MH10): MED e-tag usage

This Data Identifier was created by the ANSI / MH10 committee to identify marine equipment certified under the provisions of [Marine Equipment Directive 2014/90/EU](#) and containing an electronic tag (e-tag).

This schema does not control the unique character of the marking. The manufacturer of the marine equipment should follow the schema of the marking as it is defined by the Committee in the latest published standard

an3+a1+n4+an5...20:

DI+CA+NB+CertNo

- DI (an3);
- Type of conformity assessment (CA) module(s) set out in Annex II to Directive 2014/90/EU used for the conforming assessment (a1);
- Notified body (NB) identification number assigned by the Commission in accordance with point 3.1 of Annex IV to Directive 2014/90/EU (n4);
- Certificate (an5...20) the identification of the marine equipment MED.

Following those rules, create a sequence of characters to compose the text form of the MED e-tag.

Module	Certificate Number	Notified Body No
B	CW/MED/16/08/2020	1463
D	CW/MED/886/2019	1463
