1. BACKGROUND INFORMATION

During the 11th meeting of the SafeSeaNet High Level Steering Group (HLSG) in January 2014, several decisions and recommendations were made. This paper focuses on the main **actions** arising from the meeting that have an impact to the SSN Group. It also provides information on the current status of the follow-up actions.

2. ACTIONS FROM HLSG

The most important actions are summarised below:

a. Revision of the existing Common Operational Procedures (COP)

The HLSG noted the information provided by EMSA following the audit on the MSS carried out by the Commission Internal Audit service and agreed EMSA to revise the existing COP. A revision of the COP is presented in the document SSN 22/3/4. The draft will be submitted at HLSG 12 for approval.

b. Adjustment of the IFCD in view of the implementation of the Directive 2010/65/EU (RFD)

The HLSG approved the IFCD V1.1 with the exception of chapter 2.6 – Cooperation with Other EU systems and chapter 3.4 – Access rights. The HLSG invited EMSA to continue to work on those two chapters. This action is presented in the document SSN 22/3/2. Following SSN Group validation, the final draft will be submitted to HLSG 12 for approval.

In addition, the following actions have been completed or are being prepared:

- a. MRS Guidelines have been published on the EMSA website;
- b. EMSA is drafting the specifications for implementing the STMID service in 2015;
- c. EMSA and DG-ECHO are in contact to implement the interface between SSN and CECIS (2015).

3. ACTION REQUIRED

Member States are invited to take note of the information and provide their comments.
