

SSN Group meeting 24

SSN Roadmap

Agenda item 24.4.1

Philippe Duchesne / **Senior Project Officer**
Department C: Operations/Unit C.2.2

Lisbon / 14 October 2015

Link between SSN and CECIS

- SSN will automatically “push” all POLREP Incident Report messages, updates and feedbacks to CECIS
- Applicable to V2 and V3 IR messages and to Alert messages

Distribution of Incident Report messages

- Addresses issue of distribution during transition phase
- Distribution of V2 and V3 IR messages to both V2 and V3 end-points of National SSN Systems

Issues corrections

- Bug fixes
- Corrections of XSD

Planned date: end October

Shore-based Traffic Monitoring and Information Database

- Use SSN to facilitate the sharing of information regarding designated authorities with the Commission and other MS
- Information will be based on questionnaires received at end 2014 and reported in the Central Organisation Database of SSN

Improvements of port call message treatment

- Solution for long stays
- Solution for ships only reporting actual arrivals and departures
- Solution for IGC products without UN Number
- Improvement of user interface

Upgrade of the Central Ship Database

Planned date: March 2015
