

2nd SSN LRIT Group Meeting

Revision of the SSN & LRIT Data Quality checks

Agenda item 2.5.2

German Sarasua / MSS Coordinator
Department C: Operations/Unit C.2.2

Lisbon / 18 October 2017

The following items will reported on an annual basis:

- Ships probably not flying the MS flag and still listed in the EU LRIT Ship Database.
- Ships not integrated in the EU LRIT CDC.
- Ship not reporting to the EU LRIT CDC.
- Terminal models identified as “Others” in the EU LRIT Ship Database.

- Timeliness of Waste and Security notifications (yearly).
- Ship calls missing Waste and Security notifications (monthly and yearly). Exemptions and domestic voyages (in case of security notifications) are taken into account.
- Missing or incorrect Hazmat details:
 - DG classification (applicable codes or conventions, based on vessel type and declared cargo)
 - Location on board

The changes in the list of current availability and data quality checks can be found in the annex of the document (inserted in red).

MS are reminded that their feedback is necessary. This way EMSA reports are regularly upgraded and fine-tuned.
