

2nd SSN LRIT Group Meeting

SSN version 4 – Commissioning Test Plan

Agenda item 2.4.2

Diego Molero / Project Officer
Department C: Operations/Unit C.2.1

Lisbon / 18 October 2017

- EMSA introduced a proposal for improving the Commissioning Tests (CT) process during the 1st SSN/LRIT Group Meeting
- MSs agreed in principle with the proposal presented for improving the CT process and the MSs Commissioning Test Plan
- EMSA to submit an updated MSs Commissioning Test Plan at the following meeting

Part A - Mandatory Test Cases

- Changes to the Waste information in the PortPlus notification message
- New Bunkers information group in the PortPlus notification and ShipCall Request/Response message
- Technical amendments to the Hazmat information proposed by the Hazmat Working Group
- Content review to include Phase 2 related topics

Part B – Ancillary Test Cases

- Amendments on the reporting of Exemption notifications and new Exemption Request/Response message
- Testing activities simplified (e.g. test cases related to invalid format removed)

Member States are invited to

- Agree on the new Commissioning Tests Plan of SSN v4 and the inclusion of Phase 2 on a best effort basis.
