

ETS Maritime

EMSA/European Commission 6th Webinar

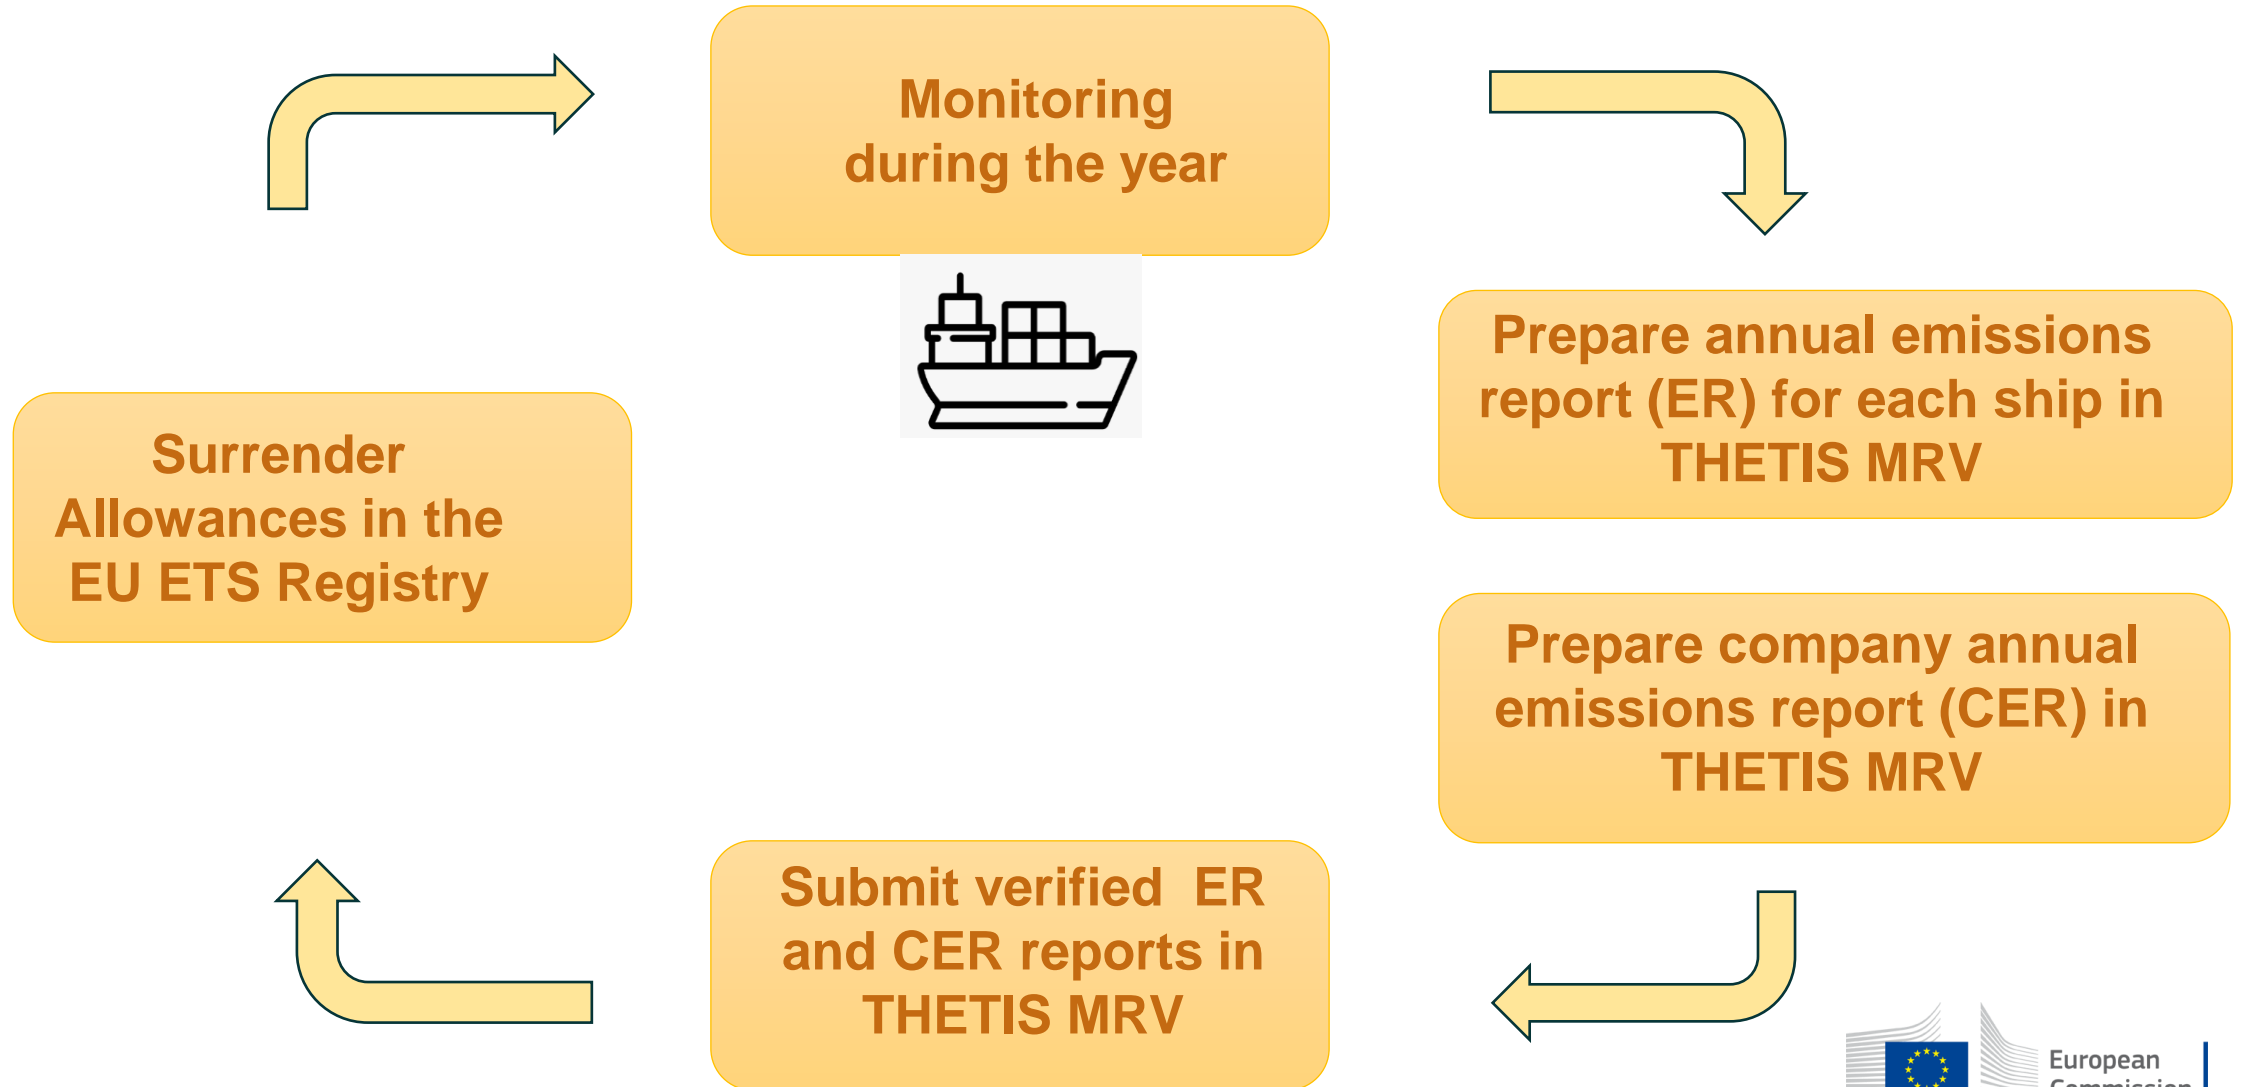

16 January 2025

Structure of the webinar

- I. State of Play of EU ETS extension to maritime
- II. The reporting of emissions in THETIS-MRV: emissions reports and company-level emissions reports
- III. Compliance in the Union Registry
- IV. Q&A

I.State of play

The EU ETS Compliance Cycle

Key steps for compliance in 2024

The shipping company perspective

End 2023/beg 2024: **understanding new legislative requirements**

Assign **MRV/ETS Responsibility** (mandates, publication of attribution list)

Revision of Monitoring Plans for ships already in THETIS-MRV, submission to verifier for assessment

Submit request to **open Maritime Operator Holding Accounts (MOHA)** in the Union Registry

By 01.04.2024: **Submit assessed Monitoring Plans** to the Administering Authority for approval

Throughout 2024: continuous monitoring of emissions and other information, on the basis of the Monitoring Plan

Reporting in case of change of shipping company during the year (**partial emissions reports**)

31 December 2024: end of the first monitoring period

Next steps for 2025

The shipping company compliance steps in the year following the monitoring year

As soon as possible:

- ✓ prepare ship-level and company-level emissions reports in THETIS-MRV, covering all ships under the company's responsibility;
- ✓ submit them to your verifier(s) in THETIS-MRV;
- ✓ follow-up on the verifier report/observations (if any).

by 31 March 2025: Submit the verified emissions reports for 2024 emissions (both ship-level and company level) to the relevant authorities in THETIS-MRV

by 30 September 2025: Surrender the due EU ETS Allowances through the MOHA in the **ETS Union Registry** to obtain the *compliant* status

State of Play

Monitoring of ETS implementation

- The European Commission and EMSA have been closely monitoring key indicators of compliance through 2024:
 - 17 000 Monitoring Plans submitted to Administering Authorities for approval
 - Nearly 2 000 MOHAs opened
- Continuous monitoring of compliance through 2025, along with support to Member States in early detection of cases of potential non-compliance and further development of enforcement tools, including predictive tools for estimating emissions levels

State of play

Support to implementation: key tools and initiatives

The Commission and EMSA have developed a set of initiatives to support stakeholders and Member States throughout the first reporting period:

- **Webinars**

- Five ETS Maritime webinars recorded and available so far on [climate.ec.europa](https://climate.ec.europa.eu) ('Events')
- Around 2 500 live participants

- **Helpdesk** at fitfor55@emsa.europa.eu, 1 500 MRV/ETS requests treated since late 2023

- **Frequently Asked Questions** on [MRV](#) and [ETS](#), 110 questions, periodically updates

- **MRV Guidance Documents** revision:

- Guidance Document no.1: [General guidance for shipping companies \(online\)](#)
- Guidance Document no.2: [Approval of Monitoring Plans by Administering Authorities \(online\)](#)
- Guidance Document no.3: Verification and Accreditation (expected February 2025)

- **THETIS-MRV tutorial videos** revision (available [online](#))

State of play

Support to implementation:-key tools and initiatives

Further exchanges through dedicated settings involving the relevant stakeholders:

- Subgroup on MRV/ETS implementation within the **European Sustainable Shipping Forum**
- Launch of **ETS Maritime Task Force Implementation** for Member States Authorities
- Meetings with **MRV verifiers**
- **Climate Change Expert Group** (Member States)

State of Play

IT developments

The IT environment (THETIS-MRV and Union Registry) underwent major changes to support EU ETS extension to Maritime in 2024. Key developments implemented so far:

- Revised Monitoring Plan
- Attribution function
- Revised Emissions Reports, introduction of partial emissions reports function
- Maritime Operator Holding Account (MOHA) in the Union Registry

Latest key development (focus of live-demo today):

- Company-level emissions reports (incl. MyCompanies page)

Further improvements/additional functions under consideration for 2025

Need further support? maritimesupportservices@emsa.europa.eu

State of play

Legislative developments

- A total of 10 maritime-specific implementing and delegated acts are now published on the Official Journal and entered into force, all available on CLIMA webpage, under [‘Documentation’](#)
- Among those adopted during 2024:
 - Delegated act revising MRV Annex I (offshore ships) – Delegated Commission Regulation (EU) 2024/3214 published on 27.12.2024
 - Two revisions of the list of islands and ports concerned by the ETS derogation
- No main changes to legislative framework in 2025, focus on enforcement

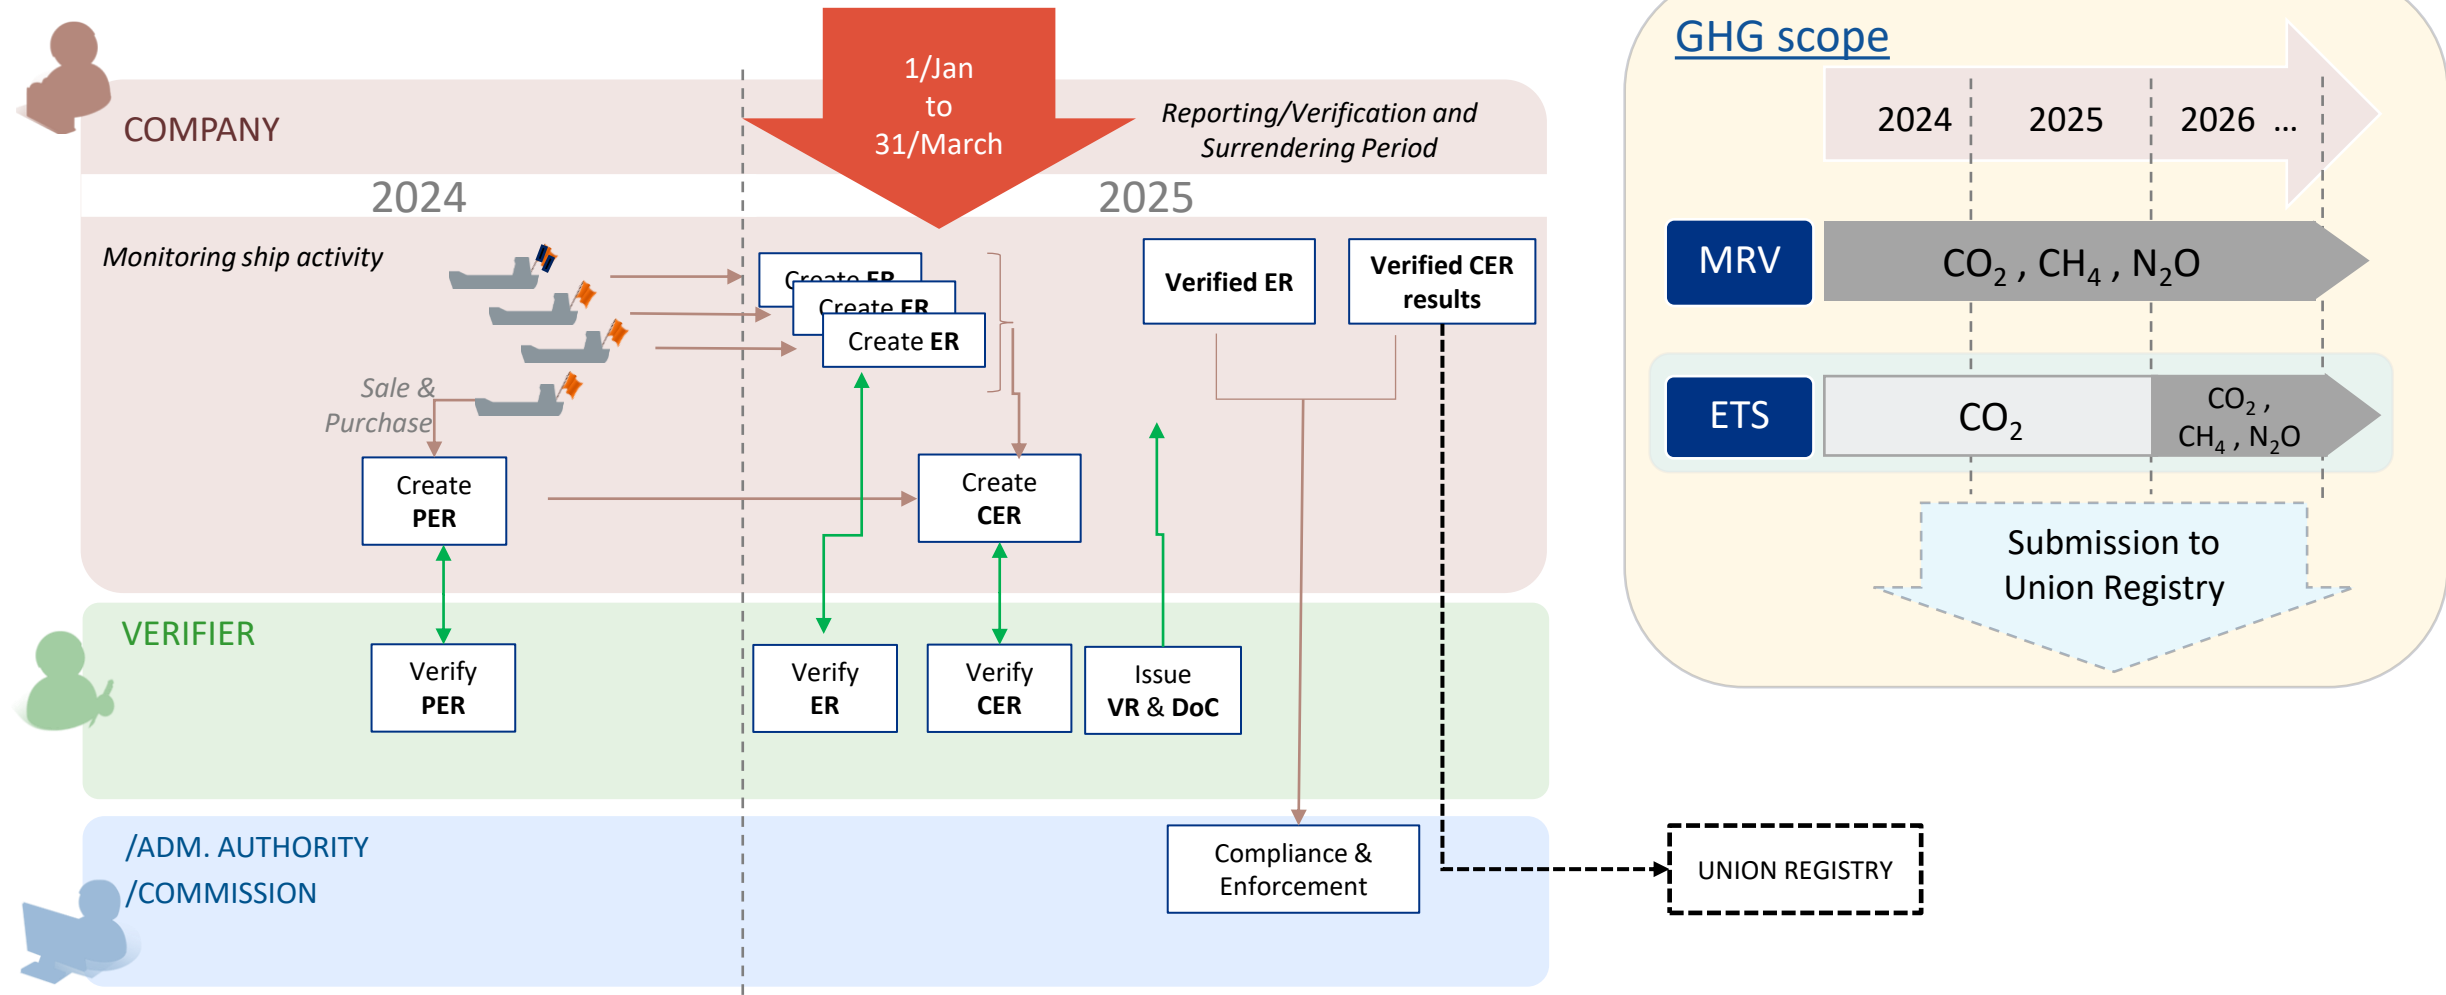

II. Live Demo:

**How to report emissions in THETIS-MRV:
ship-level and company-level emissions
reports**

Content:

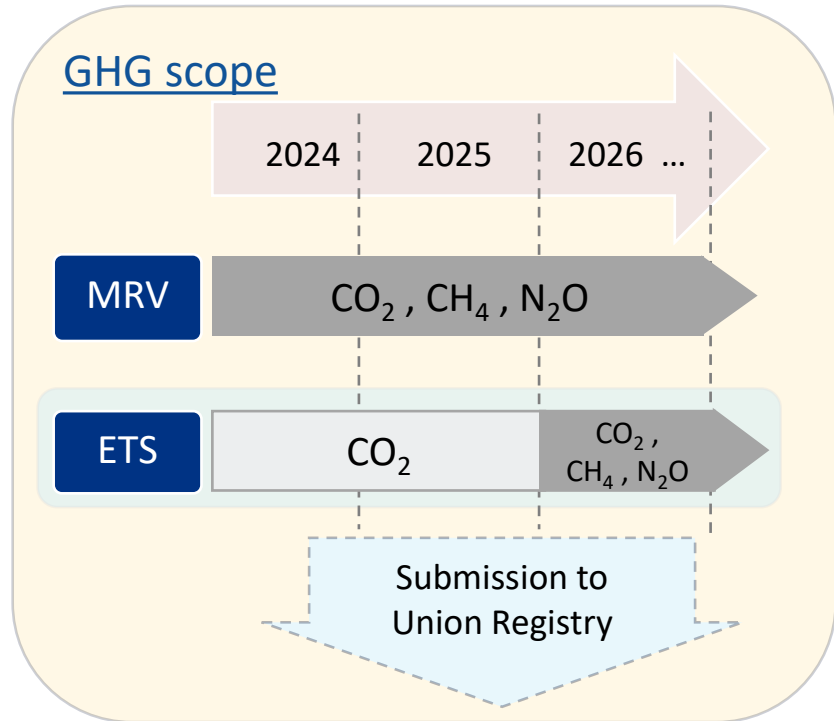

- THETIS-MRV status
- Support tools for THETIS-MRV users
- Functionalities and new features (live demo)
 - ^{NEW} “MY COMPANIES”
 - ^{NEW} CER creation and submission to Verifier
 - ^{NEW} Ships Emission Report – Automatic data filling

EMISSION REPORT - PROCESS OVERVIEW

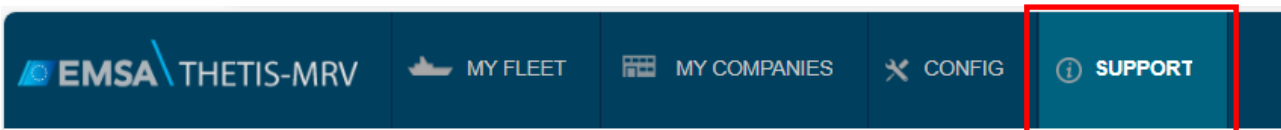

PER – Partial Emission Report
 CER – Company Emission Report
 VR - Verification Report

1/Jan/2025
