Luis Carreira	IPTM	48	Navigation	18	4
Isabel Fragoso	IPTM	45	Navigation	10	5
Helder Martins	IPTM	51	Navigation	15	None

# Participants Background

- 15 participants
- All Portuguese
- 8 work for flag state since one year ago
- Average of 38 years old
- Average of 13,6 PSC inspections as observer

■ Naval Architect  
■ Engineering  
■ Navigation  
■ Telecommunications

# Logistics and Organizational Issues

# Portuguese Reality

- Portugal has 5 full time PSC senior Officers
- Last entrances of Flag Inspectors in 1999 and 2005
- Training to new PSCO is provided by senior Officers in the field
- Time to time senior Officers give a one day lecture (CIC)

# Seminar Agreement

- Portugal knew about the Italian capability to provide a seminar in ParisMou meetings
- Portugal asked Italian Coast Guard for the seminar
- By our request, participants meals and hotel where supported by Portuguese administration

# Room

- Well equipped
- Right size for the number of participants
- Lockers
- Chairs could be a little more comfortable

# Organization

- Transportation
- Friendly people always ready to help
- All presentations and relevant documentation provided on CD-Rom
- Visible concern to improve seminar quality
- Lectures based on PowerPoint presentations
- No practical exercises
- “Break for coffee instead of coffee break”
- Folder documentation on paper to be left

# Technical Competences

# The Speakers

- Solid and good confidence in presentations
- Always friendly and ready to answer
- Invited Speaker

# Program

Mo

- Welcome

- Port State Control

  - What is and how it works

  - Paris Mou Rules and Relevant instruments

  - SiReNac

# Program

Tu

- Port State Control

- Statistics (members and Portugal performance)
- Risk profile – Target Factor
- Ship monitoring and selection
- Database and codes
- Type of inspections
- Detentions
- Release procedures and appeals
- Banning procedures

# Final Considerations

# Personal Evaluation

## My text left on the evaluation form

“ My general opinion is good.

The class room is very well equipped and the speakers demonstrate a very good level of knowledge.

Some minor aspects could be improved, such as:

- Provide printed presentation for taking additional notes and follow presentations in a better way;
- Could be very interesting a practical session aboard a ship;
- Some of the presentations could be a little more appellative.

Thank you for your time and patient to all our questions.

”

# Final Considerations

- A Senior PSCO in the Portuguese team promoted discussions after lectures
- Portuguese and Italian share Latin culture
- Learning requires good teachers but need interested students

# The End

## Questions?!
