	Subject	Month/2015
1	36 th Port State Control Seminar	February
2	37 th Port State Control Seminar	April
3	8 th Core Skills Course	May
4	38 th Port State Control Seminar	September
5	39 th Port State Control Seminar	November

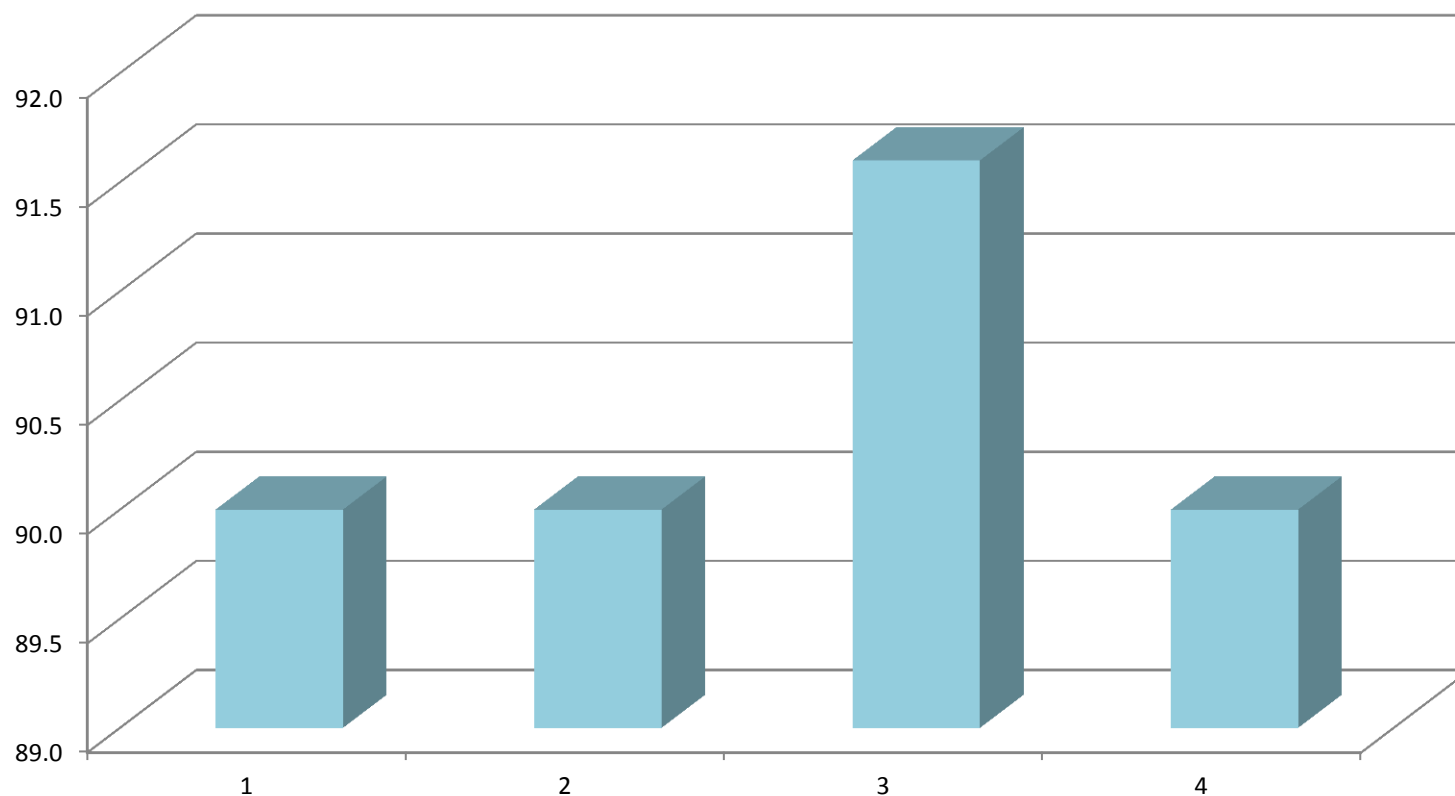

14

Evaluation of Training & Cooperation activities - 2015

Average: 91.1 %

Evaluation of Training & Cooperation activities - 2015

PSC satisfaction rate: 90.4%

AI satisfaction rate : 92.86%

Participants' major comments

- Professional and experienced speakers
- Good way of exchanging ideas and experience
- Enjoyed group work, discussion, detailed analysis

Measures to improve

- New guidelines for organisation of training
- More speakers from national administrations and institutions with a view to present national examples
- More practically orientated activities

A large conference room with a long table where several people are seated, facing away from the camera. They appear to be attending a meeting or training session. There are laptops, papers, and water bottles on the table. A presentation screen is visible in the background on the left, and a banner with the EMSA logo and the text "SAFER SEAS CLEANER OCEANS QUALITY SHIPPING" is on the right.

January – September 2016

Member States, Norway and Iceland

Training actions in Lisbon

1	EU Maritime Legislation	January
2	EU Environmental Legislation	February
3	40 th PSC Seminar	February
4	ISPS Code (group a)	March

11th CNTA meeting

Overview of the 30 Maritime Administrations

Nikolaos Katsoulis / Project Officer
Department B.0.2 Training & Co-operation

Lisbon / 13 September 2016

On 3 June 2004, the European Commission (DG TREN) requested from the European Maritime Safety Agency (EMSA) a technical input supporting the forthcoming new legislative proposals on maritime safety.

A **report** was prepared showing how EU Member States had organised their maritime administrations and how the respective bodies implemented their obligations under the International Conventions and EU legislation.

Information about the Icelandic and Norwegian maritime administrations was also included.

Information included

New pieces of legislation have also come into force at international and European level ... led to changes in the organisation of certain EU maritime administrations.

The report was updated by EMSA in cooperation with members states in 2007, 2010 and 2014.

The 2014 version for each MS contains the following:

- Contact points
- Status of Conventions
- IMO Audit Scheme
- STCW Recognitions
- Recognised Organisations & functions delegated
- Performance and composition of the fleet
- Number of surveyors & investigators
- Port Reception Facilities
- Fleet status

Training & Cooperation: Member States, Norway & Iceland

The training programme for EU countries, Norway and Iceland on implementing EU maritime legislation is defined by representatives of the member states during the annual meeting of the Consultative Network on Technical Assistance (CNTA) held at EMSA.

Training is provided by a dedicated team through seminars, workshops, experts' visits and information days covering all fields of EMSA's mandate – from port state control, maritime security and vessel traffic monitoring to port reception facilities, marine equipment and pollution prevention and response. Experts from the member states and international organisations are invited to share their experience with the course participants who have been

TRAINING & COOPERATION (MEMBER STATES) IN A NUTSHELL

Output

- ▶ Training sessions and workshops for Member States.

Outcome

- ▶ To promote best practices between EU Member States and increase knowledge and awareness of solutions found, benefiting maritime safety, security and prevention of and response to marine pollution by ships.

Overview of the maritime administrations working with EMSA

On 3 June 2004, the European Commission requested technical input from the European Maritime Safety Agency (EMSA) to support new legislative proposals on maritime safety.

Subsequently, a report was prepared to show how EU member states had organised their maritime administrations and how the respective bodies had implemented their obligations under the international conventions and EU legislation, relating to safety at sea and pollution prevention from ships. Information about Icelandic and Norwegian maritime administrations was also included.

Since the first delivery of this report in 2004, the number of EU member states has grown from 25 to 28 (Bulgaria and Romania joined the European Union on 1 January 2007, and Croatia joined on 1 July 2013).

New pieces of legislation have also come into force at international and European level which in some cases have led to changes in the organisation of certain EU maritime administrations.

Following these changes, the report was updated by EMSA in cooperation with members states in 2007, 2010 and 2014.

The 2014 version for each member state contains the following:

- Contact points
- Status of Conventions
- IMO Audit Scheme
- STCW Recognitions
- Recognised Organisations & functions delegated
- Performance and composition of the fleet
- Number of surveyors & investigators
- Port Reception Facilities

EMSA provides technical assistance in the field of maritime safety, security and marine pollution to enlargement countries, SAFEMED III and TRACECA II beneficiary countries on the basis of "ad hoc" projects funded by the European Commission preparing them to fulfil the obligations stemming from membership in the field of maritime safety, security and pollution (enlargement countries) and from the international conventions in the field of maritime safety to which they are party to (SAFEMED III and TRACECA II countries).

In order to achieve this aim EMSA's activities are focused on assisting beneficiary countries with the implementation of the relevant international and EU legislation and building the necessary administrative capacity, in order to effectively draft, enforce and implement this legislation.
