

SSN Group meeting 25 HAZMAT Working Group

Agenda item 25.3.2

Charles Abela / **Senior Project Officer**
Department C: Operations/Unit C.2.1

Lisbon / 11 May 2016

- **Section 6.6 of the Guidelines on reporting HAZMAT in SafeSeaNet includes advice on how to report bunkers**
- **Hazmat Working Group (HWG) was of the view that it would not be appropriate to report bunkers as part of the dangerous or polluting goods (DPG)**
- **14th meeting of the SafeSeaNet High Level Steering Group (HLSG) agreed that the HWG should propose business rules to allow bunkers to be reported separately from DPG**

- **EMSA prepared the first draft of the document with the proposed business rules**
- **HWG:**
 - Not all items required for DPG are applicable for bunkers (.e.g. location).
 - Reporting of bunkers should be harmonised with the reporting of bunkers to Mandatory Reporting Systems (MRS): i.e. the name, type of bunkers and the quantity per type).
 - Proposal to consider the notification of the sulphur content of bunkers was not supported.

- **Member States to note information provided**
- **Final business rules will be presented to HLSG 15 and SSN Group 26**
