

9th SSN/LRIT Group Meeting

SSN Roadmap

Agenda item 9.4.1

Philippe Duchesne / Senior Project Officer
Department 3: Simplification / Unit 3.3

Videoconference / 25 May 2021

Deployed 13 April

Consolidation of Port Call information

- Aimed at providing information related to a port call (same ShipCallID)
 - With hazmat arrival, hazmat departure, security, waste, bunkers at arrival, bunkers at departure
- Available in web user interface
 - Possibility to search per ship and per ShipCallID
 - Exports in XLSX and PDF
- Aimed at users such as port authorities, MNSWs
- Prepare for future needs, e.g. EMSWe

Revision of interface with the Central Ship Database

- SSN operational ship database will be revised to reflect information from the CSD
- Each update in the CSD will be mirrored in SSN
- CSDID will be used as unique ship identifier
- The CSD will receive ship information from PortPlus notification, Incident Reports, MRS notifications and Exemptions
- Refer to agenda item 9.6.1

Development of SSN v5

- As agreed by the HLSG 8 - December 2020
- Available in the training environment by **July 2021** – for National SSN systems' commissioning test
- Available in the production environment **December 2021**
- Transition v4-v5: refer to agenda item 9.4.2

CLD v1.3 deployed 13 April

Improvements following feedback received:

- Extended length of port facilities names and descriptions
- Content of port facilities download file

New functionality for searching logs

New functionality for consulting subscriptions

- **Improvements of COD following the feedback received**
- **New COD functionalities related to logs and subscriptions**
- **On-line manuals for COD and CLD**
- **Reporting of information on Port Reception Facilities in CLD**

As required by the PRF Directive (EU) 2019/883, in support to THETIS-EU

In scope of SSN v5

EMSA is liaising with the IMO for obtaining PRF data from GISIS

- **Automatic link between the CLD and GISIS for ISPS port facilities data**

Still pending due to lack of availability of GISIS for testing

- **Interface and Functionalities Control Document (HLSG)**
- **SSN PortPlus Guidelines**
- **Incident Report Guidelines**
- **SSN Common Operational Procedures**
- **SSN User Interface Manual**
- **SSN v5 FAQ (*new*)**

In addition, corrections to:

- SSN XML Messaging Reference Guide v5.01
- Security Guidelines v3.01
